

# Pharmacovigilance at Noucor

At Pharmacovigilance we analyze all the safety information on Noucor's medicinal products to ensure a **positive benefit/risk profile**.

## How can I help?

It is important that you report to Pharmacovigilance all **adverse reactions** or **special situations** that occur with Noucor products that you become aware of.

## Adverse Reaction

"A **noxious** and **unintended** response to a medicine"

## Special Situations

Special Situations are non-standard medical conditions that provide safety valuable information about a medicinal product, **even when they don't occur in association with an adverse reaction** or medical condition

## #TogetherForPharmacovigilance

### What do I do if I find out some information?

#### 1) **Collect the minimum data:**

- Medicinal product
- Adverse reaction or special situation
- Contact details of the affected person or the person who communicates it to you

#### 2) **Notify Pharmacovigilance** quickly (before 24 h, if possible)
